

A-Belt-Lin Industrial Co., Ltd.

Safety seat belts, buckles, industrial safety belts, tie downs

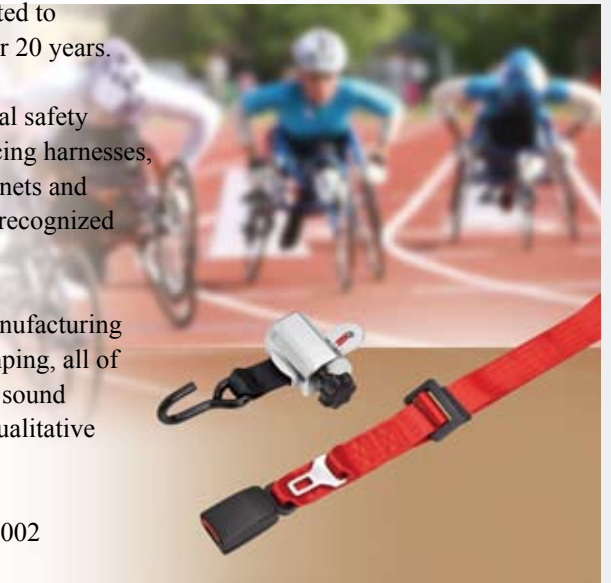

Ever since founded in 1992, A-Belt-Lin Industrial Co., Ltd. has been dedicated to developing and making various safety belts and related accessories for over 20 years.

The company's product lineup includes a variety of seat belts, buckles, industrial safety belts, tie-downs, lift slings, round slings, racing belts, pads, tow rope straps, racing harnesses, car accessories, full body harnesses, buckle tongues, medical belts, hand tools, nets and related hardware. Its products have been delivered worldwide as top-tier items recognized by professional users, with some marketed under its "Abelt.c" brand

The company is noted for its consummate capabilities from R&D and mold manufacturing to webbing weaving, webbing dyeing, plastic injection molding and metal stamping, all of which backed by its extensive know-how of plastic and metal properties, and a sound line of production equipment in-house. Such competitive advantage achieves qualitative consistency and production efficiency to set this maker apart from its peers.

The company runs manufacturing plants in Taiwan and China, which are ISO 9002 approved by U.K.'s BSI (British Standards Institute), coupled with quite a few certificates, including SiSir of Singapore, GS of Germany, SGS of the U.S., CNS of Taiwan and TNO of the Netherlands, to attest to its unbeatable quality and safety of products.

Not being complacent with its current achievement, the company continues to sharpen its competitive edge, having already set up forging and electroplating lines, also phasing in more plastic injection molding machines to upgrade production capability to further consolidate its status as a top-end supplier.
