

Eam-Win Co., Ltd.

OA chair parts

Being a major furniture-parts maker in Taiwan, Eam-Win Co., Ltd. focuses on production of OA chair-parts such as base, caster, back-part, armrest, foot ring, seat-cover, and metal mechanism, etc.

Applying compounded-material including nylon, glass-fiber, and plastics, the company operates three plants in Tainan City, southern Taiwan to handle material treatment and products injection works.

For more than 15 years, Eam-Win has fabricated OA chair parts mostly on OEM and ODM basis in large or small volume to meet clients' requirements. "We not only use advanced manufacturing machines, but also purchase testing-instruments and spectrograph for quality test & color-shade inspection, so as to guarantee the supply of products boasting superior quality and exact color. With sophisticated facilities, we can control all processes in-house from raw materials to manufacturing until packaging," says a senior manager.

To sharpen its competitive edge, Eam-Win steadily invests in R&D to turn out innovative, high-end products that have won reputation among customers. All products made meet BIFMA/ANSI-test standard and win SGS certification.

The firm exports all its output globally, mainly to the United States, Europe, the Middle East, Japan and Southeast Asia, also promising prompt delivery and the best services in addition to top-quality products.
