

Nu Flyer Co., Ltd.

Auto and PTW engines, components and parts as starter clutches, starter gears, starter idle gears

Nu Flyer Co., Ltd. was established in 1976 in southern Taiwan's Tainan City.

Nu Flyer's main products are starter clutches (50cc~800cc), starter gears for various vehicle makes and models (50cc~800cc), and starter idle gears (50cc~800cc). The company also supplies recoil starters, forks, gearshift drums, airbag filters, one-way bearings, and outer rings, etc.

Always devoted to technological and quality upgrading, Nu Flyer provides safe and reliable products, among which are ISO 9001:2008 approved engine parts. Focusing on enhancing efficiency, the firm has high production capacity.

Nu Flyer is a leading manufacturer of motorcycle parts in Taiwan, with a sound reputation in global markets, exporting 30% of output. Among its customers are local car and motorbike assembly plants for Yamaha, Kymco, Honda, Aprilia, Suzuki, SYM, and PGO. Offering OEM, ODM, and customization services, the firm is capable of handling mass and small-volume production, and welcomes customers' samples and shop drawings.
