

Chang Pu Enterprise Co., Ltd.

Gear wrenches, flexible gear wrenches, long double-ring flexible gear wrenches

The Chang Pu Enterprise Co., founded in 2005, is highly adept at producing quality gear wrenches and has a strong capability for developing innovative products.

The company feels that each order it receives represents the customer's affirmation and trust in the quality of its gear wrenches, and this belief drives the firm to work constantly harder to come out with better products for its buyers.

Chang Pu will strive to continuously introduce brand-new, innovative gear wrenches to reinforce its comprehensiveness and retain the loyalty of customers around the world.

The company is fully confident that the quality, durability, and functionality of its gear-wrench products are at the forefront in the international market. Its R&D team, made up of talented and experienced professionals, collects the latest market information and focuses on customer requirements in working out newer and better products that often lead market trends.

The firm's modern integrated factory in central Taiwan has a very high ratio of in-house production, and all of its products are stringently inspected and tested using its own advanced quality-control systems so as to achieve the highest possible level of precision and quality.

The company is fully confident of its ability to supply the best-quality products and most satisfactory services to customers worldwide.
