

Sane Jen Industrial Co., Ltd.

Warehouse Storage, great products for logistics, transportation and supermarkets

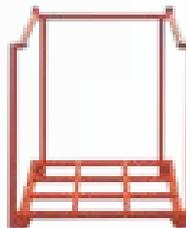

Ever since its establishment in 1984, Sane Jen Industrial Co. has devoted itself to supplying a wide range of warehouse storage and transportation products, mostly made of stainless steel, steel wire, steel pipe, and steel plate. The firm's product line includes wire folding containers, wire folding trolleys, wire decking, wire storage shelves, wire stacking frames, metal pallets, wire display shelves, wire baskets, and wire netting.

Sane Jen's products are mainly manufactured on an ODM and OEM (original equipment/design manufacturer) contract basis. They can be used for logistics and warehouse storage and supermarket/shop displays, and are ideal for the storage of automobile parts, motorcycle parts, electrical appliances, mechanical hardware, and furniture parts and accessories, among other things

In order to ensure product quality, Sane Jen employs a well-trained R&D team and engages in technological cooperation with Japanese customers. It also subjects its products to strict quality inspections before shipping them.

Its long-term commitment to the development of pioneering products has won Sane Jen a solid global reputation and a steady flow of orders. It has exported successfully for 25 years, especially to Japan; other export markets include the Middle East, Europe, Asia (but not China), North America, Central and South America, Australia, and New Zealand.

The company's minimum shipment is one TEU (twenty-foot equivalent unit) container of goods, and it can ship from any port in Taiwan, depending on customer requirements.
